

Secure SAKURA

The compact, highly secure collection solution for confidential papers.

- Its innovative aluminum design and easy-to-use low dimensions and extreme mobility mean it is regularly chosen by customers in search of a discreet and aesthetically pleasing solution.
- The handling handles have been harmoniously integrated into its very compact design. The high-security locking mechanism guarantees the protection of your confidential documents.
- If you want to integrate these collectors into the complete waste collection modules, the SAKURA terminals provide you with a wide range of packaging solutions.
