

Greenbox paper collector voluntary contribution.

- What if your employees were to throw their papers themselves in centralized collection points? (see AGORA + terminals). Another way of sorting, more involving for users. Another important advantage is that it generates significant savings on your cleaning and waste collection budgets.
- “Greenbox” is therefore an economical, sustainable and attractive tool that has been specially developed for companies that have chosen this dynamic sorting policy.
- Associated with AGORA + collection points, it is a particularly effective response to collect paper.

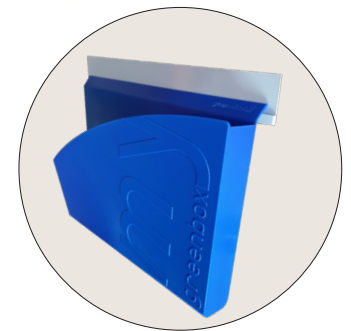

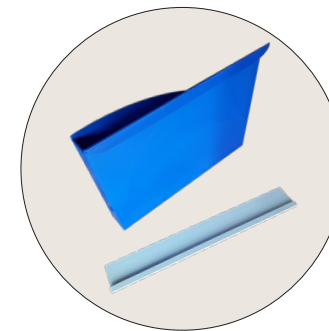

DIMENSIONS L 30 x P 22 X H 4 cm

WEIGHT 0,25 kg
